his weekly newsletter, discusses and the American way of life? the reports of Central Intelli- "Although there is little activation." gence Agency subsidizing of stu-

He is chairman of that com- and is attempting to handle the mittee.

His letter follows:

"This week the Washington ferred to us. papers have all been 'horrified' ligence Agency to channel student support in American institutions away from the Communist and revolutionary view- "I think the review which is

dent groups. It seems to me that lie purposes.
we should be much more con"We are constantly urged to we should be much more coning for student acceptance.

Poage also writes of House at this stage of the session), Agriculture Committee business, our committee meets each day business which is properly re-

"This week we have favorably over the so-called revelation of reported 11 upstream or flood the efforts of the Central Intel-prevention projects. We have

point. Frankly, I haven't been accorded each of these projects able to understand why all the by our committee has had a great deal to do with keeping "We all know that every ide-this program a successful one, ology attempts to control the but even so, there is no way thinking of every organized whereby any committee or any group, and we all know the Com-administrative agency can premunists have been especially vent some degree of private active in seeking to secure the hardship when it becomes neccooperation and support of stu-essary to take property for pub-

cerned if our own government have the federal government had stepped aside and turned buy the easements and rightsthis field over to the subversive of-way needed for these projgroups who are constantly vy-ects, but our committee has felt that it was much better to In the final analysis, just leave the responsibility for this what is wrong with trying to sort of thing with the local peoencourage organized groups to ple rather than to have an fagency at Washington empowered with authority to take individual farms.

"Our mail has greatly increased since I assumed the committee chairmanship. While committee mail is supposed to go to the committee, much of it is delivered to our congressional office. Much of it is from other states. Some of it is crank mail-often unsigned.

"I have no desire to answer a letter to which the writer would not affix his signature, but many people write us in good faith without putting their! address on the letter. I am sure that most of these expect us to get the address from the envel-

ope.
"I would like to acknowledge these letters but we simply cannot always keep the envelope with the letter and in many, instances we are unable to reply for lack of an address. So, please, put your address on the
